

Operational analytics: throughput holds above target

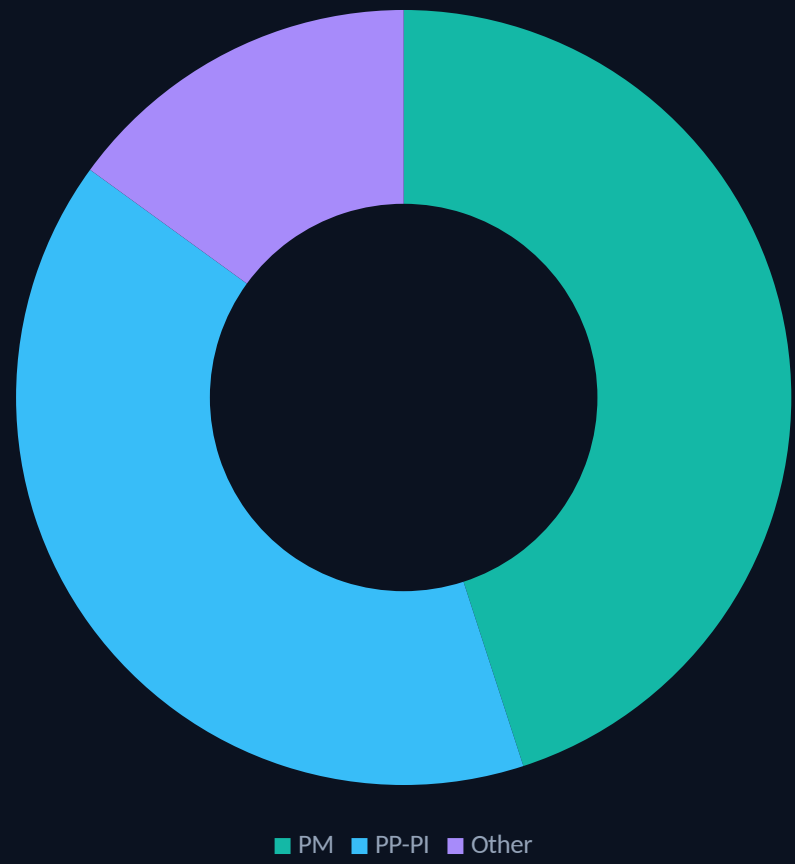

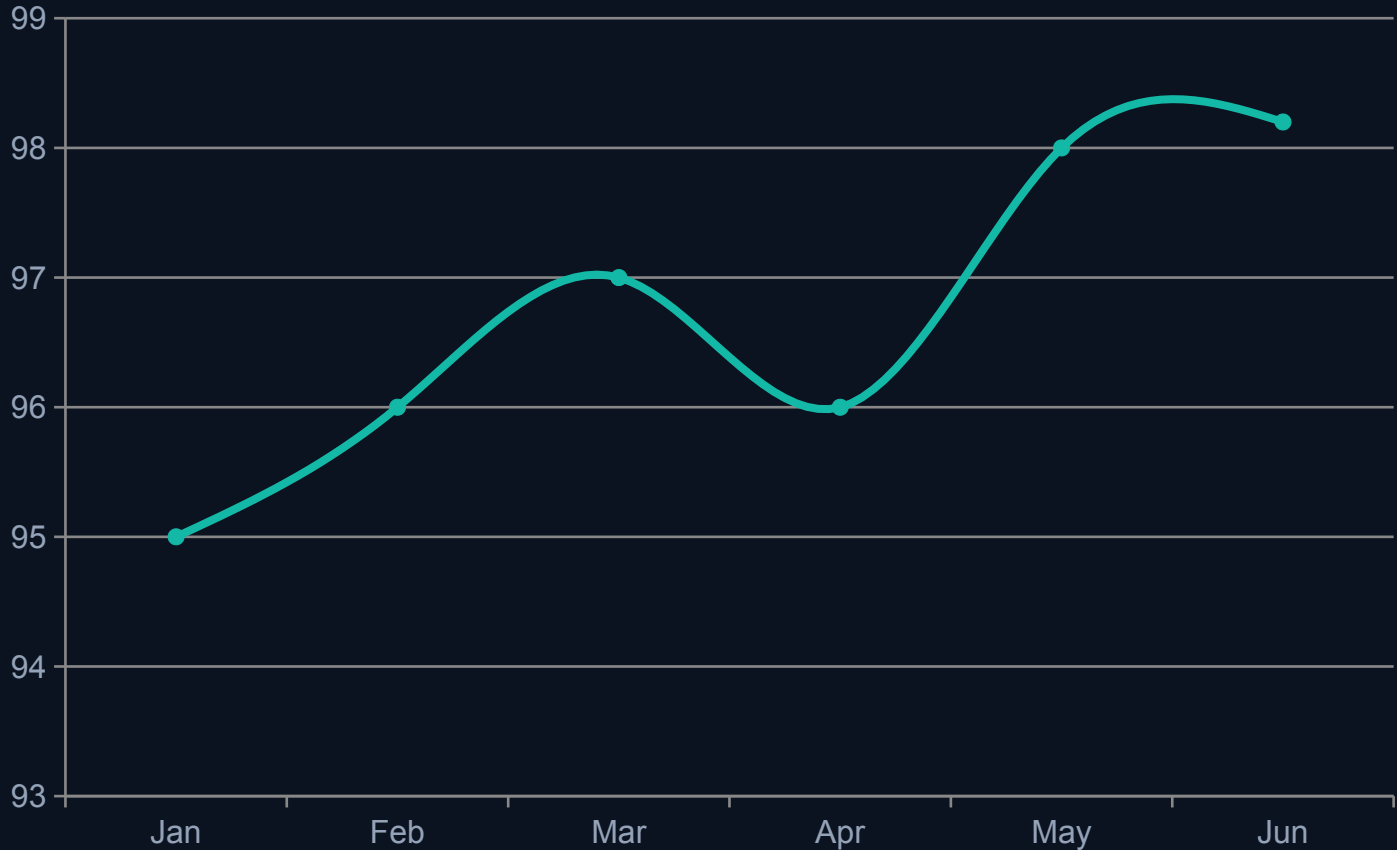

Power BI readout · Q2 2026

Data flows ingest → model → dashboard before any metric is read

Process Flow (template)

Throughput trended up; mix stayed PM-heavy

Summary dashboard: four KPIs, trend, and mix at a glance

Analytics Dashboard (layout)

Summary visual (dashboard layout)

Action

1. Hold the line on throughput; investigate flat utilization (88%).
2. Promote the PM mix gains; keep defect rate $< 1\%$.
